Richie has explored and documented well-known shipwrecks such as the Andrea Doria, RMS Titanic, and the HMHS Britannic, but it was the identification of the WWII German submarine, U-869, which catapulted his diving career into the world of television and underwater documentary filmmaking. That six-year effort has been the subject of several television documentaries and a best-selling book, *Shadow Divers* by Robert Kurson. The New York Times bestseller is soon to be a major motion picture by 20th Century Fox. Alongside diving partner John Chatterton, Kohler co-hosted 57 episodes of the History Channel series, *Deep Sea Detectives*, multiple documentary specials and continues to work on underwater projects for the film and television industry.
